

2013 Arvor 280 As £69,950 VAT UK TAX paid

If you've been waiting for something truly special, this is it. This 2013 Arvor 280AS is a rare and highly sought-after fishing boat, made even more desirable by its striking navy blue hull and the fact that Arvor ceased production in 2017—making examples like this increasingly hard to find. Powered by a single 320hp Mercury QSD Turbo Diesel engine with approximately 690 hours, it has been well maintained and is ready to go. Originally supplied new by us, so we know this boat and comes with all the important paperwork, plus it comes with our standard 3-month warranty for added peace of mind. Exceptionally well equipped, it features an extensive electronics package—more than enough for even the most serious angler—so there's no need for upgrades or additional expense. Comfort hasn't been overlooked either, with Eberspächer diesel heating to keep you warm on chilly mornings, along with 4 berths for overnight fishing trips or weekend stays. The large, flat aft deck provides a safe and practical working space, ideal for landing your catch without obstruction. This is a fantastic opportunity to own a versatile, capable, and increasingly rare boat that perfectly balances performance and comfort. For more information, please call Boats.co.uk on 01702 258885—we welcome part exchanges, so let us know what you have.

Specification
